

PRESS RELEASE
14 - 10 - 2025

Willemstad - The Gaming Control Board (GCB) is a foundation established on 19 April 1999 with the specific purpose of becoming the supervisor of the entire gaming industry operating in and from Curaçao. With the entry into force of the National Ordinance on Games of Chance (LOK) on 24 December 2024, the GCB has been designated as the Curaçao Gaming Authority (CGA) and will continue operations under this name.

The CGA is led by a Board of Directors under the supervision of a Supervisory Board. Until recently, the CGA fell under the political-administrative responsibility of the Minister of Finance; since 19 august 2025 this responsibility has been transferred by the government to the Minister of Justice, as announced by the government on 13 october 2025.

In the context of its activities and its commitment to transparency, the CGA confirms that the Supervisory Board resigned in mid-September. The process to appoint new members by the government has already begun. This development has no impact on the performance of the CGA's supervisory duties, including the continued implementation of the National Ordinance on Games of Chance (LOK). All licensing and supervisory activities continue uninterrupted.

The Curaçao Gaming Authority remains committed to ensuring the integrity and reliability of the gaming sector in Curaçao.
